**SAVOR PITTSBURGH  
CHEERS TO 15 YEARS!**

In support of

## CHEERS TO 15 YEARS!

To celebrate our 15th year, Savor Pittsburgh will be hosting an exclusive and elegant evening under the stars!

This year, guests will enjoy a spectacular seven-course dinner presented by an award-winning panel of prestigious chefs and culinary teams. Throughout the evening, guests will enjoy a premiere epicurean adventure combining an unparalleled menu, ambiance and philanthropy for an elegant evening supporting Magee-Womens Research Institute & Foundation (MWRIF).

On September 2, 2021, we invite you to safely join us outdoors at Nova Place, located on Pittsburgh's North Shore, for an evening of scrumptious tastings, cocktails and live entertainment.

By partnering with Savor Pittsburgh, you support women's health research, create incredible visibility for your company and showcase the best of the city to your clients. In 2019, we garnered more than \$200,000 of valued exposure surrounding the event.

In our commitment to the health and safety of our guests, a limited number of tickets will be available for this exclusive seated event. In addition, for guests to feel most comfortable, we will be selling tables to the event in addition to individual tickets, for this seated event.

## HOW YOU CAN HELP

Cuisine and cocktails are the fun ingredients at Savor Pittsburgh, but the real spotlight is on women and infant health research at MWRIF, where scientists and clinicians are making discoveries across a woman's entire lifespan. From breast and ovarian cancer treatments, fertility preservation programs, prenatal breakthroughs, midlife, gynecology and menopause, Magee-Womens Research Institute & Foundation is finding answers and translating them into exceptional patient care.

The following pages provide information about the research being conducted on behalf of women and infants at MWRIF and will outline sponsorship opportunities. We invite you to consider sponsoring Savor Pittsburgh to change the future for women and infants in Pittsburgh and around the world.

Savor Pittsburgh is committed to the health and safety of all of our guests. The safety and comfort of our guests is and will remain our top priority throughout the planning process of Savor Pittsburgh. Our regulations, policies and protocols are under constant review, subject to change and will be continually updated and revised in accordance with the most current public health (CDC, State of Pennsylvania, City of Pittsburgh and Allegheny County) information, direction and official guidelines.

Savor Pittsburgh is Proudly  
Planned by Dickerson Creative  
Communications

## WHY WOMEN'S AND INFANTS' HEALTH NEEDS YOU

Women make up **HALF OF OUR POPULATION...** BUT women carry **100%** of our **FUTURE**.

**HARMFUL** environmental and nutritional influences during pregnancy can lead to **LIFELONG** complications.

Studies performed on men are frequently **MISAPPLIED** to women.

**HEART DISEASE** is the leading cause of death in women. Cancer is the second leading cause. Together, these represent **44%** of female mortality.

**1 IN 8 COUPLES** have trouble getting or sustaining a pregnancy.

Women's health research is **UNDERFUNDED**

About **4 MILLION** babies are born in the U.S. each year but, more than **10%** of them are born prematurely.

**INHERITED GENES** increase the risk of certain cancers.

**50%** of adult women will have **INCONTINENCE** at some point in their lives.

### A WORTHY CAUSE

Magee-Womens Research Institute is the largest independent research institute in the U.S. focused solely on women's and infants' health research. More than 100 nationally recognized physician-scientists are engaged in groundbreaking research spanning diverse aspects of women's health.

Here are just a few of the ways that Magee is making a difference:

#### PREGNANCY AND NEWBORNS

Scientists continue to make lifesaving discoveries about key diseases such as preeclampsia, fetal growth abnormalities, preterm birth, prenatal genetics and the lifelong impact stemming from those diseases. Nearly 11,000 babies are born at Magee each year and their cutting-edge Neonatal Intensive Care Unit is the largest in the country.

#### FERTILITY AND INFERTILITY

Scientists are delving deeply into the fundamental mechanisms that govern germ cell biology and pathways that lead to human infertility to discover means for restoring fertility to diverse populations including young cancer patients.

#### WOMEN'S CANCERS

The institute's advancements in detecting and treating breast, ovarian, cervical, and other cancers has transformed deadly diseases into ones that are survivable and manageable.
